JOMIKE TEJIDO'S FOLDABOTS

# HEY THERE, FOLDABOT FAN!

Do you believe in magic?
Do you believe in monsters?
Do you believe in the impossible?
Well, if you didn't before, you better start believing in all of those things now because

## ...FOLDABOTS IS BACK!

This version of **FOLDABOTS TOY BOOK: REAWAKEN** serves as a pre-release for the upcoming Physical Release of **FOLDABOTS TOY BOOK: REAWAKEN** that will be released soon by our team.

This book contains some cool creatures like **SWABE** & **SUNGGAB!** Two mighty Foldabot warriors who defends the streets of **NEO-REPUBLIKA!**

Invade and destroy cities with the **MANINIRABOTS,** a subgroup of dark titans who once invaded the world back in the Dark Ages, now has returned to pave way with nothing but destruction!

But try not to get lost in the dark or else you might run into the now evil **LUTABOT MITOCHRONS!** Speaking of "myths", the **MYTHOBOTS** are here to protect you! A battle of myths and legends! This is gonna be a spectacle but also a bit of a mess.

This book was brought to you by the team at **FOLDABOTS REAWAKEN!**

A group of dedicated Foldabot fans looking to keep this community alive! Founded by the handsome Jay Ron Imbuido, the team consists of: Thunderbuk1, Marvin Joseph Naza Abel, Jan Edred Hernandez, Charles David SR Pereja, Reyniel John Sicat, and Shirbert Tianzon Villanueva

We hope you enjoy this book! Keep on creating!

JOHN DAVE KUIZON SALAZAR

FOLDABOTS COMMUNITY LEAD, CONTENT CREATOR, ANIMATOR, AND FAN.

# HIGANTECHRON

HIGANTECHRON IS THE COMBINED FORM OF THE MITOCHRONS, NAMELY NUNO, MANANANGGAL, KAPRE, AND TIKBALANG - BUT WITH LU-SHO'S POSSESSION OF NU-NO'S BODY, THE THEN FOLDABOT ALLY NOW TURNS INTO A MONSTROUS EVIL COMBINER OF THE SAME NAME.

TO QUOTE TOYBOOK 7 - "NU-SHO'S PRINCIPLES ACTUALLY CONVINCED OTHER FOLDABOTS TO JOIN HIS CAUSE". AND THIS COMBINER PROVES THAT NU-SHO'S HAS REASONABLE INTENTIONS THAT MAKES YOU QUESTION WETHER TO JOIN THEM OR NOT.

BEFORE THEY CHANGED SIDES, THE REMAINING MITHOCHRONS TAGGED ALONG WITH A REPLACEMENT TEAM - THE MIGHTY MYTHOCHRONS - TO CREATE A DUO THAT CAN AID THEM IN BATTLE, HOWEVER THE DUO ALSO SEPARATED AS ONE JOINED THE MYTHOBOTS UNDER NU-SHO'S RULE.

HIGANTECHRON'S GROTESQUE FEATURE RESEMBLES A GIANT WINGED MONSTER, AND A BATIBAT OF SOME SORT. WITH TERRIFYING WINGS AND A THIRST FOR THE DESTRUCTION OF MODERN CIVILIZATION.

MYTHI

THE SMACKDOWN BETWEEN M

WARFA

# MIGTHY MYTOCHRON

A SLEEK AND AGILE FIGHTER, MIGHTY MYTOCHRON'S ABILITY TO FIGHT EVEN IN THE DEOTHS IS A RESULT OF THEIR HIDDEN FORM, THE MYTHIC HYPPOCAMPUS.

BORN OUT OF NECESSITY, THE MIGHTY MYTHOCHRON'S CREATION WAS DONE TO AID WHAT'S LEFT OF THE MITOBOTS. AFTER BEING PERSUADED BY NU-SHO, THE MIGHTY MITOCHRON WAS LEFT TO RECLAIM THEIR LOST COMRADES - WHATEVER IT TAKES.

IN CONTRAST WITH HIGANTECHRON'S TRADITIONAL ROOTS, THE MIGHTY MITOCHRON WAS CREATED FROM CREATURES FROM DIFFERENT PARTS OF THE WORLD. MYTHS SAYS THAT AN ANCIENT LUMAN DEITY REINCARNATED AS THE COMBINED FORM OF THE MIGHTY MITOCHRON - AT SOME POINT MANANANGGAL, KAPRE, AND THE MIGHTY MITOCHRON COMBINED TO FORM AN ULTIMATE FORCE OF NATURE - THE MYTHIC ANGGITAY

ALONGSIDE MANANANGGAL AND KAPRE, THEY CREATED A POWER DUO TO FIGHT WITH THEM AGAINST LUTABOTS, AS THE OTHER TWIN JOINED THE LUTANT SIDE, THE OTHER TWIN REMAINED LOYAL TO THE FOLDABOTS

# A FIGHT BETWEEN HAILSTORM AND HELLFIRE

## LEARN ABOUT THE FIERCE RIVALRY OF TITANIC MECHANICAL BEINGS

"IT'S THE HUMANITY WHO WILL END THEMSELVES, FOR I SHALL GIVE IT TO THEM!"

ANGER AND RAGE FILLED **NU-SHO** OUT OF WHY HUMANS HAD TO WAGE WARS WITH EACH OTHER. HE WENT AHEAD ON STORMING THE VERY SAME MILITARY BASE HE CREATED THE FIRST LUTABOTS **SIGWA** AND **DELUBYO** BUT UNBEKNOWNST TO HIM AS A RESULT, KILLING 5 **INNOCENT HUMANS** ON HIS WAY IN THE PROCESS.

"THIS IS THE BEGINNING, AND THE END!! YOUR SOULS BE BURNED BY HELLFIRE!!"

IT IS NOW UP TO THEM TO DEFEND THIS WORLD FROM A **DEMONIC MECHANICAL MONSTER** CAPABLE OF MASS DESTRUCTION WHO CAUSED GREAT ANGUISH DURING THE **DARK AGES**. SHALL THE **HAILSTORM** RAIN OVER THE BURNING HATE, OR SHALL THE **HELLFIRE** BURN THE WORLD INTO ASHES?

"LET THE BLOOD OF OUR ANCESTORS BE OUR SACRAMENT!!"

AS NU-SHO'S STORMING STARTED, THE HUMANS HE CAUSED GREAT DEATH TO WERE IN FACT **LUMAN DESCENDANTS** WHO WERE GIVEN SECOND CHANCE IN LIFE TO DEFEND ALL LIFE IN THIS PLANET. THIS TIME, IN THE FORM OF **MECHANICAL BEINGS**.

"I WILL NOT MAKE THE SAME MISTAKE AGAIN, FACE MY WRATH FOR WHAT YOU DID THOUSANDS OF YEARS AGO!!"

IT WAS BEFORE THIS WHERE **NOBUNDO** MADE IT ON HIS WAY HOME, ENCOUNTERING HIS DOG CARRYING HIS ON PHONE, WITH HIS OLD ROBOT DESIGN, FOLLOWED BY **A CERTAIN ROBOT WHO LOOKS EXACTLY LIKE HIS DOG AND HIS DESIGN**. THIS CAUSED AN ENIGMA TO NOBUNDO AND CHASED AFTER IT, RESULTING IN MEETING MORE FOLDABOTS.

# TIKBALANG

**TIKBALANG** is a part of a sub-group of Foldabots called the **Mitochrons**. This mean galloping powerhouse has only one mission: search and destroy. Aftter joining **NU-SHO's** side is his decision, and made him more careless about things, he is more rebellious leaving his **LUTABOT** comrads to set up his own deeds, but in the end he still joins with Nu-Sho

## ROBOT MODE

- A Lutant Splat in TIKBALANG's chest cavity gives him toxic life.
- He has titanium legs with internal shock absorbers.
- He has ultra-enhanced mechanoid horse-power multiplication pods.

## HORSE-MAN MODE

- He can breathe fire and shoot laser beams through his eyes.

# NU-SHO

**NU-SHO** is the **FOLDABOTS'** newest enemy. He was formerly **NUNO**, a Foldabot under the **MITOBOTS** subgroup, before being mind-warped by the fiendish **LU-SHO**. He is powered by his **PUnSO** (Pyrolithic Underground Strategic Outpost), a base that absorbs energy from polluted areas. The PUnSO also serves as an armory for his **LUTABOT** henchmen's **MAXIMUM LUTANT FORCE WEAPONS**, Nu-Sho's version of the Foldabots' Ultimate Agimat form.

## ROBOT MODE

- A Lutant splat gives him toxic life.
- His left eye possesses unknown powers.
- He uses his MAXIMUM LUTANT staff to control the minds of living things. It can also scramble robotic circuitry.

## VEHICLE MODE

- He emits noxious gas that contributes to air pollution.
- His photon blasters can melt steel.

# MANANANGGAL

**MANANANGGAL** is part of a sub-group of Foldabots called the **MITOCHRONS**. This air operations specialist is ultra-fast and accurate. After being ambushed by the nefarious **NU-SHO** with **KAPRE**, she became more wicked, and is dead set to wipe away mankind to follow Nu-Sho's word: **"TO RENEW"**.

## ROBOT MODE

- A Lutant splat in MANANANGGAL's chest plate. gives her toxic life
- Her sonic scream can disrupt electronic circuitry.
- She has electro-powered cells in hands which allow her to recharge in the dark.
- Her body splits into two for temporary fight missions.

## BAT MODE

- Her techno-organic bat wings provide soundless flight and act as an invisibility cloak during spy mission.
- Her enhanced optics gives her hypnotic abilities.

# KAPRE

**KAPRE** is the leader of the subgroup of Foldabots called the **MITOCHRONS**. He's a creature of few words, but he has the most superior military capabilities in the team. After being tricked by **NU-SHO**, **TIKBALANG** beat him continuously but Nu-Sho stops him and instead made him his new warrior. Now Kapre wreacks havoc to the trees being captive at Nu-Sho's promise: **"TO RENEW"**.

## ROBOT MODE

- A Lutant splat in Kapre's chest cavity gives him toxic life
- His ultra-high density armor can withstand heavy beating.

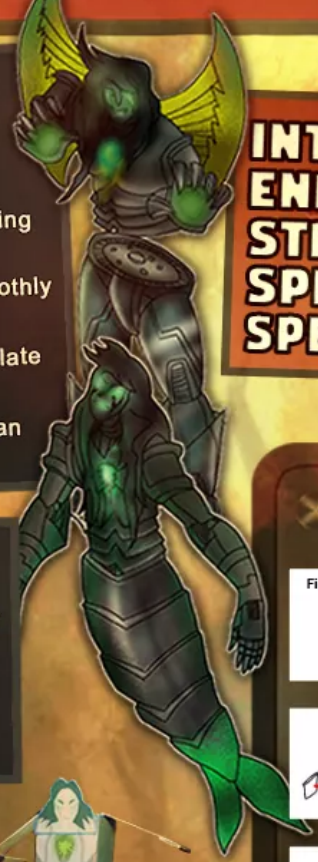
LUTANT SPLATS

# SIR-ENNA

**SIR-ENNA** is one of **KAPRE's** creations that should be united by the **MIGHTY MYTHOCHRON**, she was sabotaged by Kapre to become **HIGANTECHRON "MIGHTY DEVASTATOR"**. She becomes the horrific weapon of Higantechron; She transforms into sword, axe or spear.

## ROBOT MODE

- A Lutant splat covers Sir-Enna's chest compartment gives her toxic life.
- She can detach her body and attach a wing to glide.
- She performs hand-to-hand combat smoothly on the opponent.
- She has hypnotic beam that can manipulate any opponent.
- Her sharp-adept, lutant emiting claws can pierce through toughest metal.



## MERMAID MODE

- Her strong but calm voice can lure or annoy her opponents.
- Her Claws can turn into flippers and fins to gain speed whenever she swims.
- She hypnotise sharks to folow her deeds.

2. FOLD all the BEIGE LINES.
3. GLUE Inside Head Sleeve to itself.
4. GLUE Head to itself.
5. GLUE Inside Head Sleeve to Head.
6. GLUE each Weapons Sides A and B (some found on Sir-Enna's Toycard) back to back. Same goes for Kapre's Flames and Lutant Energy.
7. TUCK KN Sir-Enna's Arms.
8. TUCK IN Nu-Sho and Tikbalang's Hands
9. SLIP Nu-Sho and Tikbalang into Kapre's Legs.
10. SLIP Weapon Wing into Manananggal's Wing Sleeve.
11. INSERT the other Weapon Wing into Manananggal's other half.
12. PULL OUT Manananggal's T-Tab and insert them in Kapre's Shoulders. Do the same for the other half.
13. INSERT Higantechron's Head into Kapre's Head.
14. INSERT the complete Sir-Enna Sword into Higantechron's Hand Sleeve.
15. INSERT Higantechron's Flame into Higantechron's Hand Sleeve.

FOLDABOTS

# SADA

## MYTOBOT FIGHTER

After rebelling from the Foldabots, Tikbalang's Agimat Energy transferred into a Foldabot, turning it into a more stronger, more powerful, more wittier version of tikbalang. Sada, the main fighter of the group, fights to give back Tikbalang's Agimat energy and change him for good. He turns into Mighty Mytochron's legs, or the Hippocampus' torso

## FOLDABOT MODE

- His Agimat gives him powerful punches that sets the target in flames.
- He can cause earthquakes with telepathic control of tectonic plates.
- He turns rocks and muds into projectiles.
- His tail doubles as a whip.

## HORSE MODE

- His horse mane and tail emit fumes that can paralyze Foldabot circuitry.
- He can travel through portals.
- He joins underwater escapades and missions.

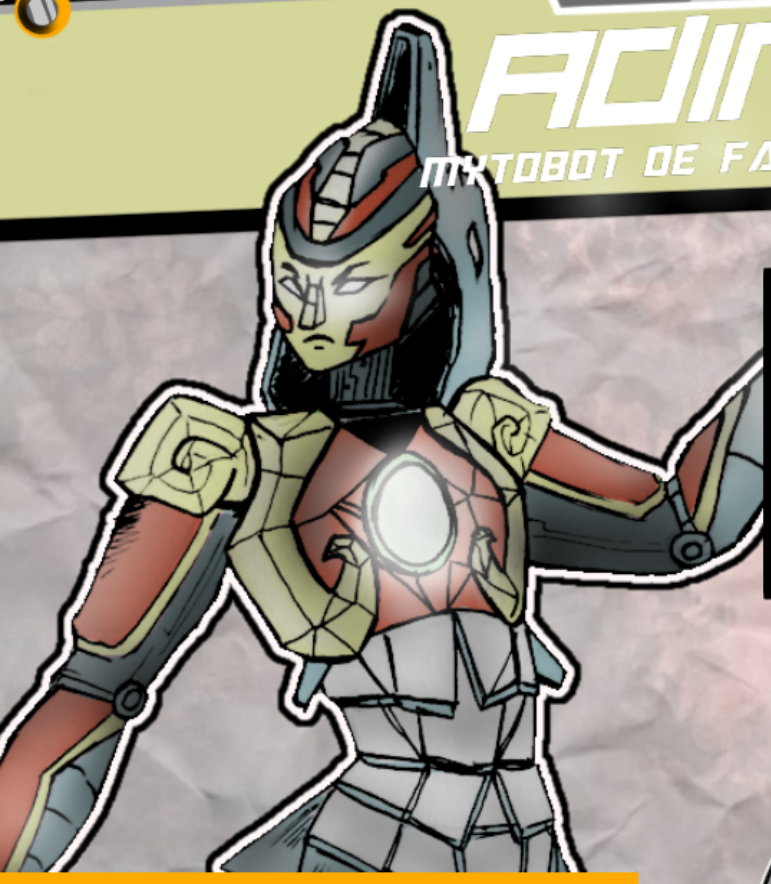
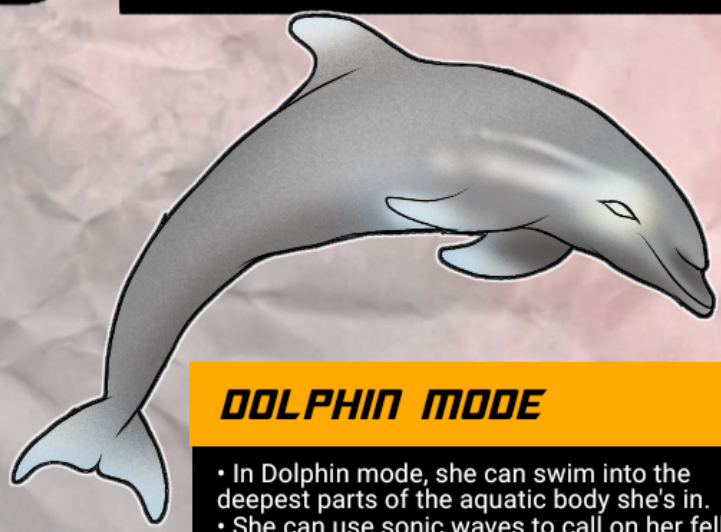
# Adinda

## Mytobot de facto leader

Adinda is the de facto leader of the Mytobots subgroup. A lone dolphin washed up in the shores of Neo Republika, Manananggal thought of her capabilities to fight underwater, hence she was created. Her capabilities to swim in a fast pace helps her aid other's in need her revival gave her unique abilities, turning her into the Foldabot huntress of the deep. She turns into Mighty Mytochron's torso, or the Hippocampus' lower torso.





## Foldabot Mode

- In Foldabot mode, she can use sonic water portals for teleportation.
- Her Agimat is hidden in an orb on her chest.
- She can use sonic waves to clean up an area.

## Dolphin Mode

- In Dolphin mode, she can swim into the deepest parts of the aquatic body she's in.
- She can use sonic waves to call on her fellow Mytochrons
- Her revival caused her skin to glow at night because of bioluminescence.

FOLDABOTS

# ADINDA

FOLDABOTS

# WILIS

## MYTOBOT STRATEGIST

Wilis is a Foldabot Strategist, using her size manipulation to win any battle. Her experience in combat makes her a threat even for a small size. However, she sometimes get carried away, causing her defeat at times. She forms into Mighty Mytochron's arms.

## FOLDABOT MODE

- In Foldabot mode, she can alter her size to fight any opponent.
- She stores her Agimat in an orb in her chest.

## FLYING FISH MODE

- In Flying Fish mode, her wings can slash through any surface.
- In Flying Fish mode, she controls her school of fishes to attack an enemy within reach.
- Her eyes doubles as lights to see in-depth water observation missions

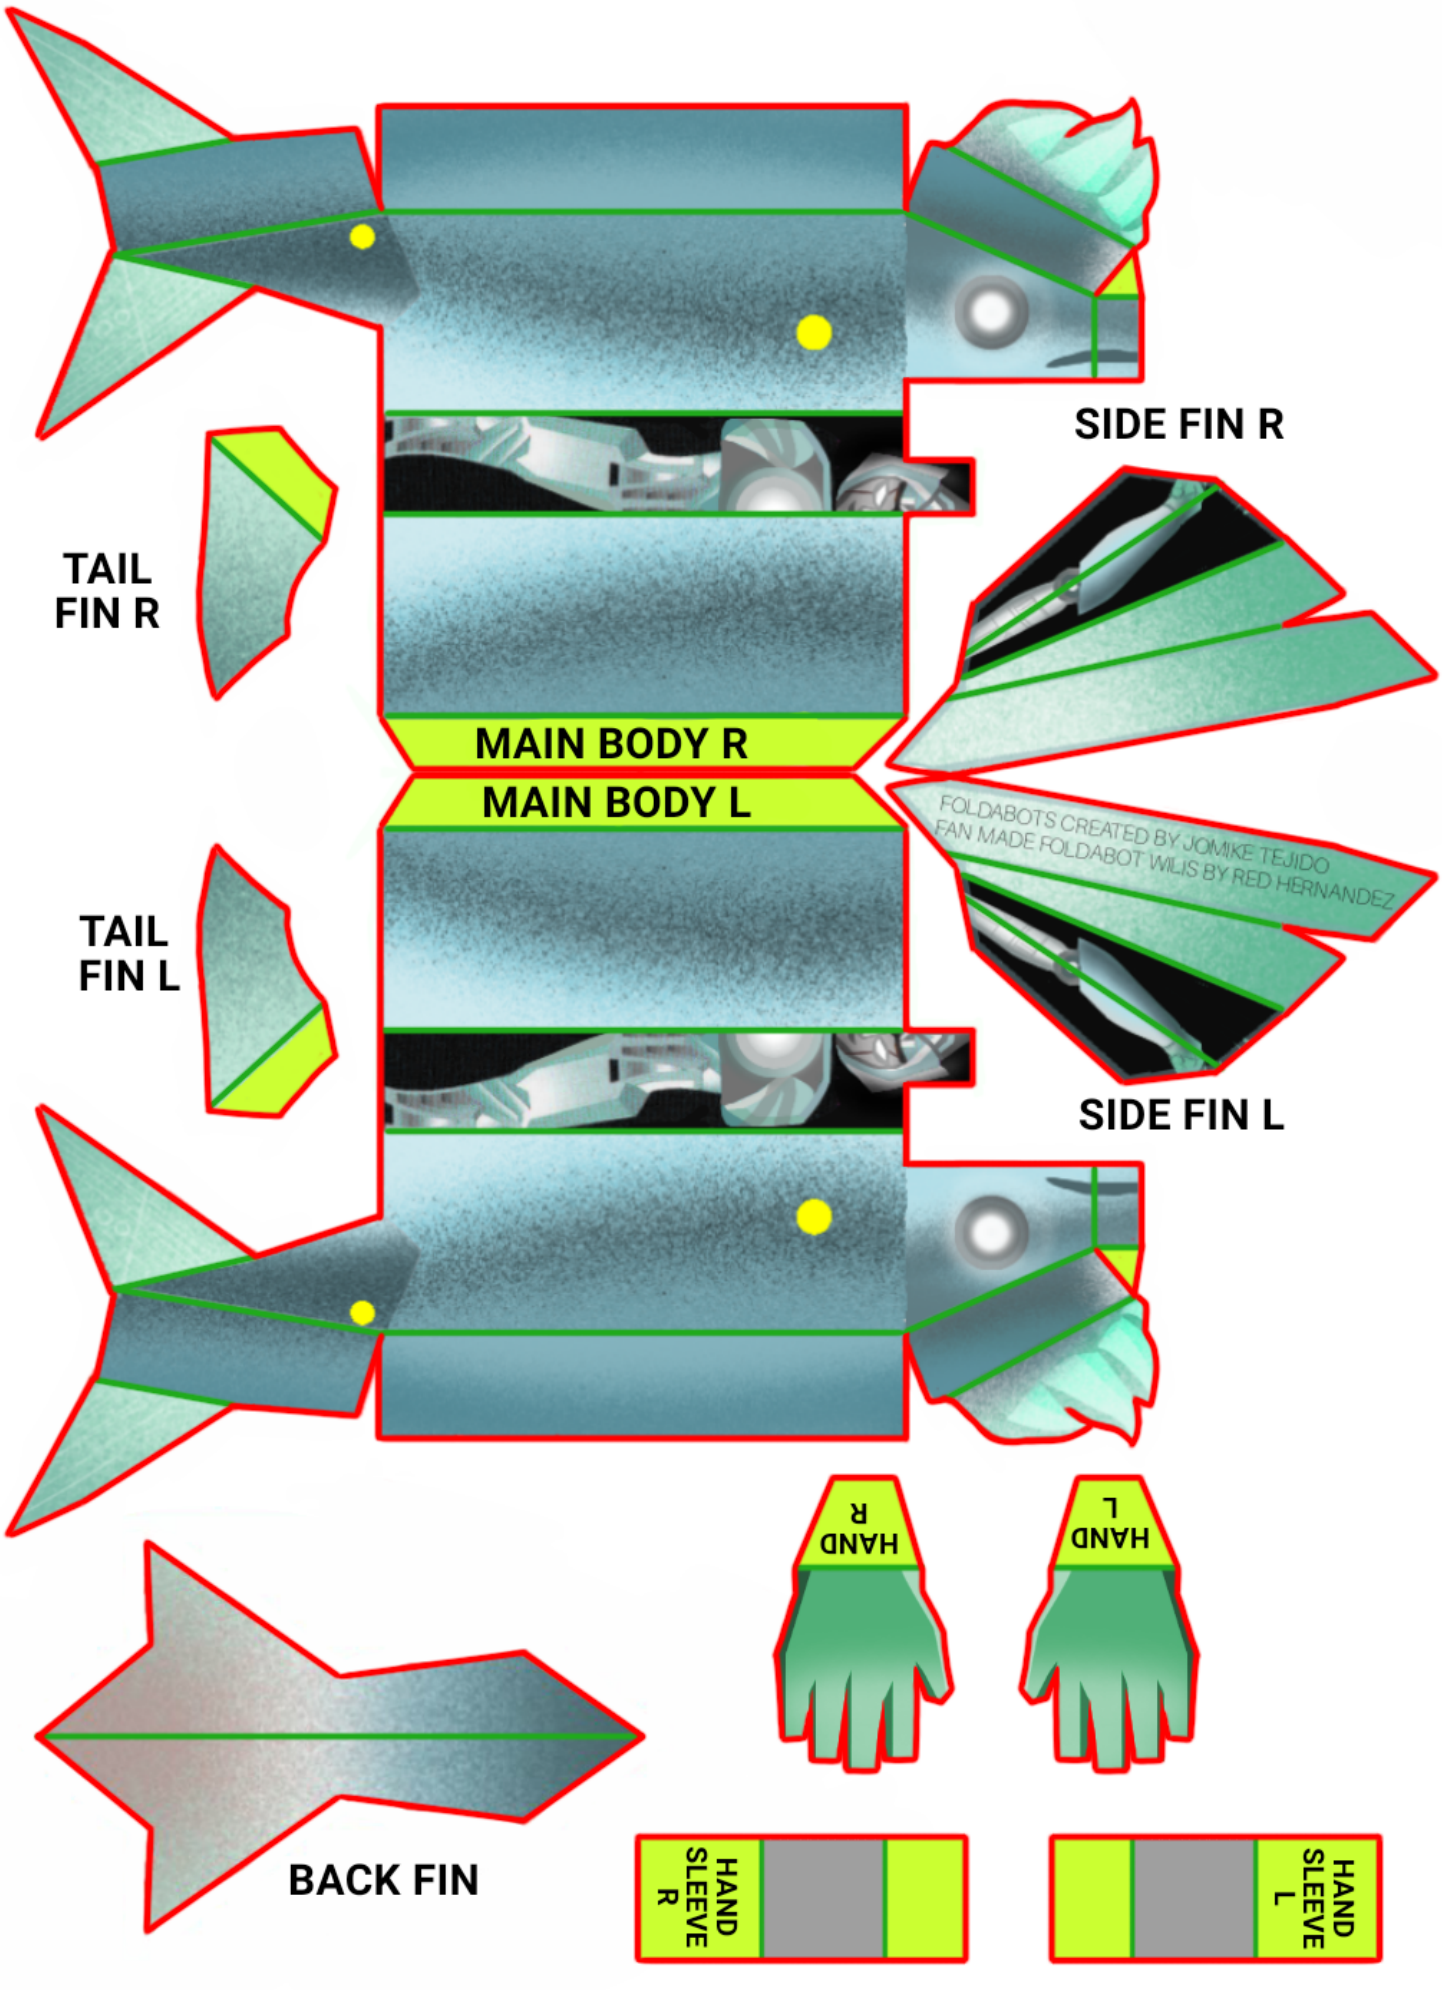
FOLDABOTS

# WILIS

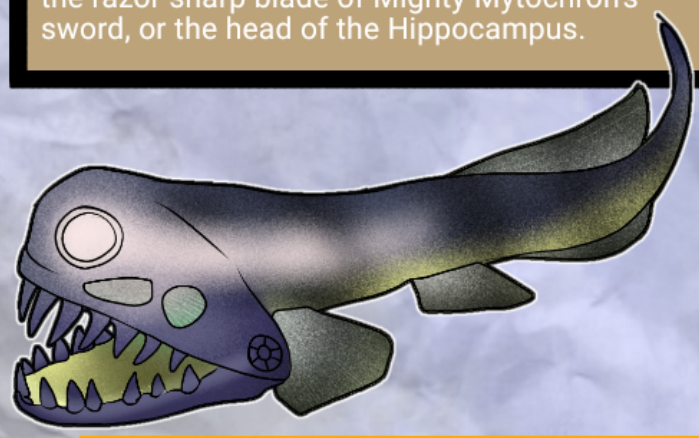


FOLDABOTS

# PIRAHANAX

## MYTOBOT ARISTOCRAT

One of the ancillary Foldabots created, Pirahanax was once a stand alone Foldabot until she witnessed the Mytobots. She is the aristocrat of the group. Swift and subtle, though very underrated, she can slash through any metal and pass any terrain. She transforms into the razor sharp blade of Mighty Mytochron's sword, or the head of the Hippocampus.



## FOLDABOT MODE

- In Foldabot mode, she can forsee possible futures.
- She hides her Agimat in a compact disk in her chest.
- She can transform into a cannonball against Lutabots.

## SLACKJAW MODE

- In Slackjaw mode, she can glow in the deepest parts of the sea.
- She has microreceptors that indicate Lutabot presence.
- Her fin and teeth can cut through any metal.

FOLDABOTS

# NIYEVE

## MYTOBOT WARRIOR

Mananganggal and Kapre called upon 2 new Mytobot recruits, both sirens. However, one of the siren clones didn't survive the ambush but however, Niyeve escaped. As much as she is ruthless due to her warrior status and build, she empathizes to those allies who were brainwashed as she hopes for her other clone, Sir-Enna to be back. She transforms into the Sword and Mighty Mytochron's shield, or the Tail of the Hippocampus

## FOLDABOT MODE

- She hides her Agimat in a compact disk on her chest, made by a thick coat of ice.
- Her shield can block even the strongest blasts and blows, even from a combiner.
- Her ice sword can freeze an opponent internally upon contact.
- She can use her voice to produce harmonic sounds that can hypnotize opponents and heal any living creatures.
- She can use her hands as fins for faster swimming.

## GHOST SHARK MODE

- In Ghost Shark Mode, her skin is coated with thin layer of ice, allowing her to camouflage on icebergs.
- Her eyes can tame sharks and other marine animals to follow her orders.
- She can camouflage on the deepest parts of the sea.

# MIGHTY MYTOCHRON

With the absence of Nuno and Tikbalang, the Mighty Mytochron is the combined form of the new Mytobots created to aid Manananggal, Kislap, and Kapre. They roam the seas and reign over all aquatic Foldabots. Can they be the key into defeating Nu-Sho once and for all? or will they cower in defeat just like the rest of the fallen Mytobots

## FOLDABOT MODE

- Her thin build is perfect for swimming and hand to hand combat.
- Her Agimat energy grants her portal activation and hydrokinesis.
- Her Agimat orb is protected by Adinda's tail chest plate.
- Her staff can disrupt any circuitry.
- Her crystal in her chest contains powerful Agimat that can heal brainwashed Foldabots.
- Her staff can harness the power of Higantechron.
- Her giant sword can easily wound Lutabot combiners.
- Her shield can block powerful blasts from powerful combiners.

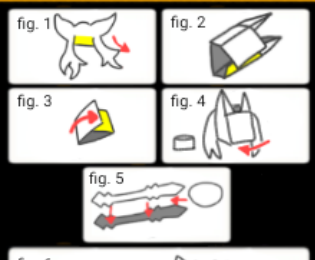
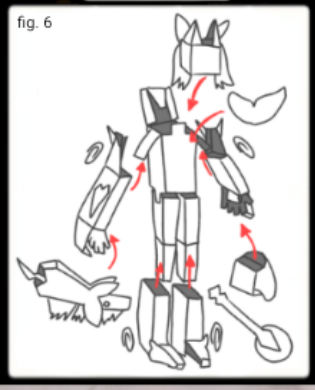
## CREATE YOUR OWN FOLDABOTS 2-IN-1 TOY!





ASSEMBLE THE HEAD
1. CUT out the patterns. Follow the CYAN LINES.
2. FOLD all the GREEN LINES.
3. CUT the yellow area of the Hair to any length you desire and CURVE the Hair. (fig. 1)
4. GLUE the Head to itself. (fig. 2)
5. GLUE Head Sleeve to itself. (fig. 3)
6. GLUE the Sleeve on the back of the Hair and GLUE the Hair to the Head. (fig. 4)
7. SANDWICH a Mystic Orb into the Mystic Staffs and GLUE the Mystic Staffs back to back. (fig. 5)

COMBINE ALL MYTOBOTS
1. SPREAD Adinda's legs (fig. 6)
2. SEPARATE Wilis and Sada into two
3. ATTACH Sada into Adinda's legs and CLIP at the bottom. (fig. 6)
4. ATTACH Wilis into Adinda's arms with the Head facing downwards. (fig. 6)
5. Fold Wilis' tail and clip the wings to it to stay in place. (fig. 6)
6. ADD Parahanax in between Sada with a clip. (fig. 5)
7. PUT the body stand into Adinda's body. (fig. 6)
8. ATTACH the Head into Adinda's head and LOCK it with the dolphin nozzle. (fig. 6)
9. EXTRA: SLIP Mystic Staff to Mythochron's Hand or SLIP Niyeve's Head on Mythochron's Arm with a paperclip and ATTACH Niyeve's Ice Sword on Niyeve's Tail and Insert Pirahanax between the Tail (make sure Pirahanax is pointing sideways), secure with a paper clip and SLIP it on Mythochron's Hand to form Sword and Shield.

# MYSTIC MYTOCHRON HIPPOCAMPUS

The Mighty Mytochron is the combined form of the new Mytobots created to aid Manananggal, Kislap, and Kapre. They roam the seas and reign over all aquatic Foldabots. When they don't need to fight Lutabots, they ride the tide in the Mystic Mytochron Hippocampus once more.

## FOLDABOT MODE

- An Agimat is found in her chest.
- Her body is powered by the Ultimate Agimat energy.
- Her head can emit sonic waves and water portals.
- The flying fish wings boosts her swimming speed and grants high sea surface jumps.
- Her hooves can detach Lutabot Combiners.

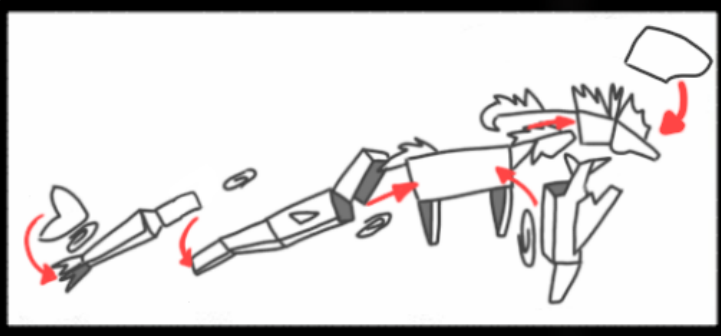
## CREATE YOUR OWN FOLDABOTS 2-IN-1 TOY!



COMBINE ALL MYTOBOTS
1. SET all the Foldabots into their Alternate modes except for Wilis.
2. FOLD Sada's mane and INSERT the head into Parahanax. Secure by putting Parahanax' tail fin in between Sada's bodies.
3. INSERT Niyeve's Ghost Shark Head into Pirahanax' Head.
4. FOLD the hands from Wilis' flying fish head and CLIP the fish into Sada's body.
5. FOLD the dolphin nozzle and CLIP the side of the dolphin head in Sada's behind.
6. INSERT Niyeve into Adinda's Tail. Secure with paper clip.
7. Paper clip Adinda's Body Stand into Niyeve's Tail.
8. USE Adinda's stand to support the body if you want.

FOLDABOTS

# SWABE

## THE ROOKIE

Swabe is an enthusiastic Foldabot and even way back from the Dark Ages. Wise but he has a lack of self control. But he is teachable and his youth makes him the most active Foldabot in the field.

## FOLDABOT MODE

- An agimat is hidden on his chest plate.
- He uses Agimat particles to form an Agimat Flame that can scram up robotic circuitry.
- He uses hand to hand combat oftentimes

## CAR MODE

- His Agimat can be seen on his Alternate Mode.
- His grill which is made of hard metal can withstand extreme impacts.

# SUNGGAB

## THE RED BLACKSMITH

Came to be after Nobundo's dog took his phone to a nearby tree, Sunggab is a Foldabot who during the Dark Ages, son of Bangis who had the ability to create red translucent weapons with his mind, earning him the title of "Red Blacksmith". Though this Foldabot may seem serious and can kill anyone who provokes him, he is actually a deranged yet fun to play as a Siberian Husky.

## FOLDABOT MODE

- An Agimat is located on his chest plate.
- He has the ability to create semi translucent weapons with his mind.
- His claws can scratch through metal.

## SIBERIAN HUSKY MODE

- He has micro-enhanced audio receptors and optics.
- He has Foldabots advanced Animaskin technology that he got from his father, Bangis
- He has sonic howl emitter.
- He can communicate with animals.

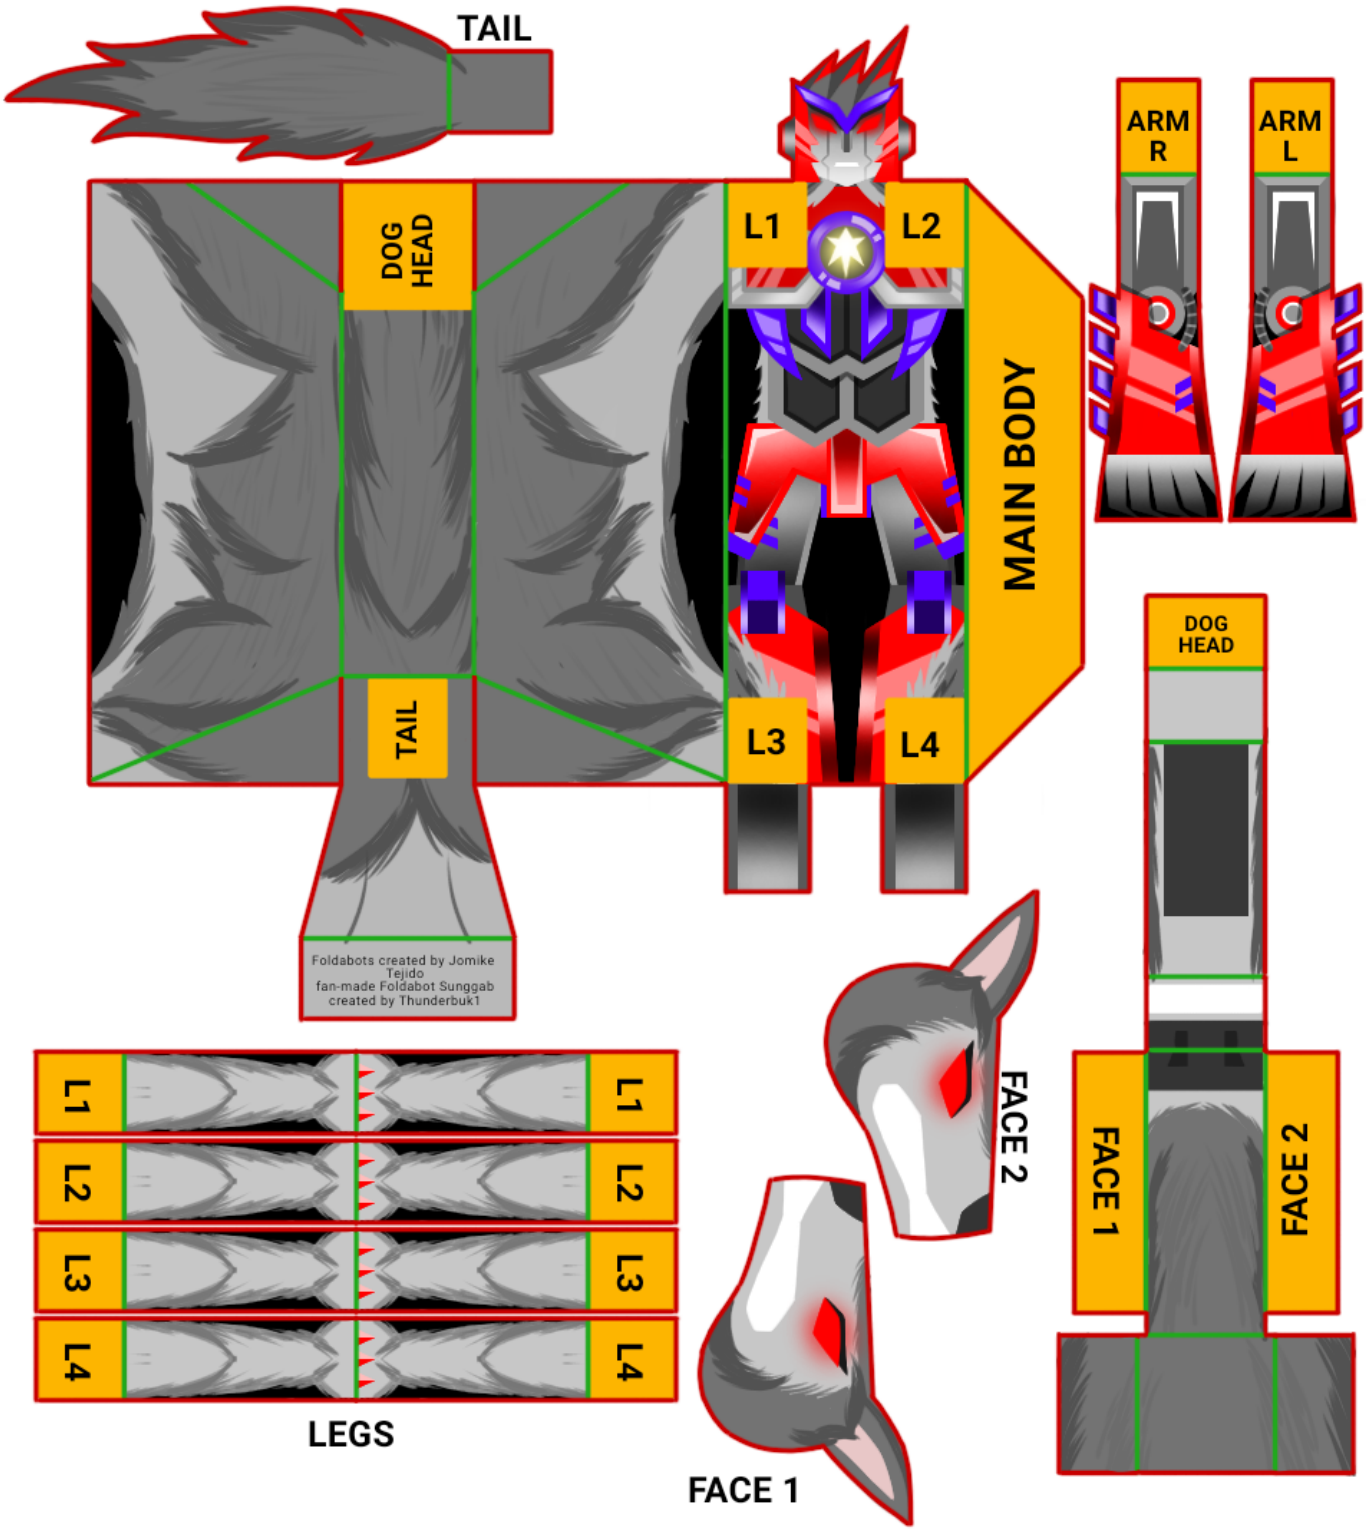
# SUNGGAB



# PURGA

## MANINIRABOTS WARRIOR

Back during the Dark Ages, 5 unearthly warriors were summoned to bring the end of the world, they were defeated. Purga is one of them. He got his name from a desire to purge the world off of the living. Just like his brother Lipulin, they share the same desire for total domination and destruction. His voice is loud enough to become a sign of a bad omen coming for those who hears it. He turns into Wasakus' Left Leg.

## LUTABOT MODE

- A Lutant Splat is located on his chest plate.
- He has a long high density horn for ramming opponents.
- Enhanced shock distribution system protects him against high altitude impact.

## P-40 MILITARY JET MODE

- His propeler can be used as a ramming spinning blade.
- He has turbo contact superstructure.
- He has thunderous jet blasters.

# LIPULIN

## MANINIRABOTS BOMBARDIER

Back during the Dark Ages, 5 unearthly warriors were summoned to bring the end of the world, they were defeated. Lipulin was one of them. Summoned once again to anihilate the world he once was suppose to. His appearance is a mockery of all dead bodies he once killed during the Dark Ages. His ability to bombard a location leaving a large crater is something that he should be feared for. He turns into Wasakus' right leg.

## LUTABOT MODE

- A Lutant Splat is located on his chest plate.
- His claws can scratch through metal.
- He can blast thunderous plasma burners with his hands.

## F-5 MILITARY JET MODE

- He has plasma burners.
- He has impacted alloy armor.
- He has a concealed sonic boom blasters.
- His missiles can leave large craters upon

# PUKSA

## MANINIRABOTS SORCERESS

Back during the Dark Ages, 5 unearthly warriors were summoned to bring the end of the world, they were defeated. Puksa was one of them. She is once again summoned in this world to anihilate all things on this world. Her presence is no joke as she is a world ending threat just like her fellow Maninirabots, much like her dark magics. She turns into Wasakus' left arm.

## LUTABOT MODE

- A Lutant Splat is located on her chest plate.
- She can charm Foldabots and force them to kill ofher Foldabots.
- Her hands can emit toxic hex blasts that can severely damage opponents upon contact.

## HELICOPTER MODE

- Her blades can slice through anything.
- She can shoot her tail blade as a homing saw blade.
- She can camouflage among clouds.

# SIGALUTAN

## MANINIRABOTS EXPLOSIVES EXPERT

Back during the Dark Ages, 5 unearthly warriors were summoned to bring the end of the world, they were defeated. Sigalutan was one of them. Now once again summoned to bring forth the end of all things in this world, his militaristic might is something Foldabots should fear of, aside from his bullets that he throws which explodes upon contact. He turns into Wasakus' right arm.

## LUTABOT MODE

- A Lutant Splat is located on his chest plate.
- He can throw his bullets on his sling as deadly explosives.
- His bullets are much dangerous when used as a bullet for his turret.

## HUMVEE MODE

- His tires can adapt to any terrain.
- His noisy driving can lead to noise pollution.
- His turret can shoot homing bullets.

# SALIGUTGOT

## MANINIRABOTS COMMANDER

Back during the Dark Ages, 5 unearthly warriors were summoned to bring the end of the world, they were defeated. Saligutgot is one of them. He is the commander of the Maninirabots that were summoned by Nu-Sho to bring forth total annihilation of all things in this world. His desire for world domination is so strong his presence can be passed off as even the strongest ones trembles in his and his Maninirabots' presence. As the leader of the Maninirabots, he transforms into Wasakus' Torso.

## LUTABOT MODE

- A Lutant Splat is located on his chest plate.
- He has a tough exostructure.
- His hands can emit lutant smoke.

## M42 WALKER BULLDOG TANK MODE

- His turret is armed with homing missiles and can automatically detect enemies.
- His crawlers can adapt into any terrain.

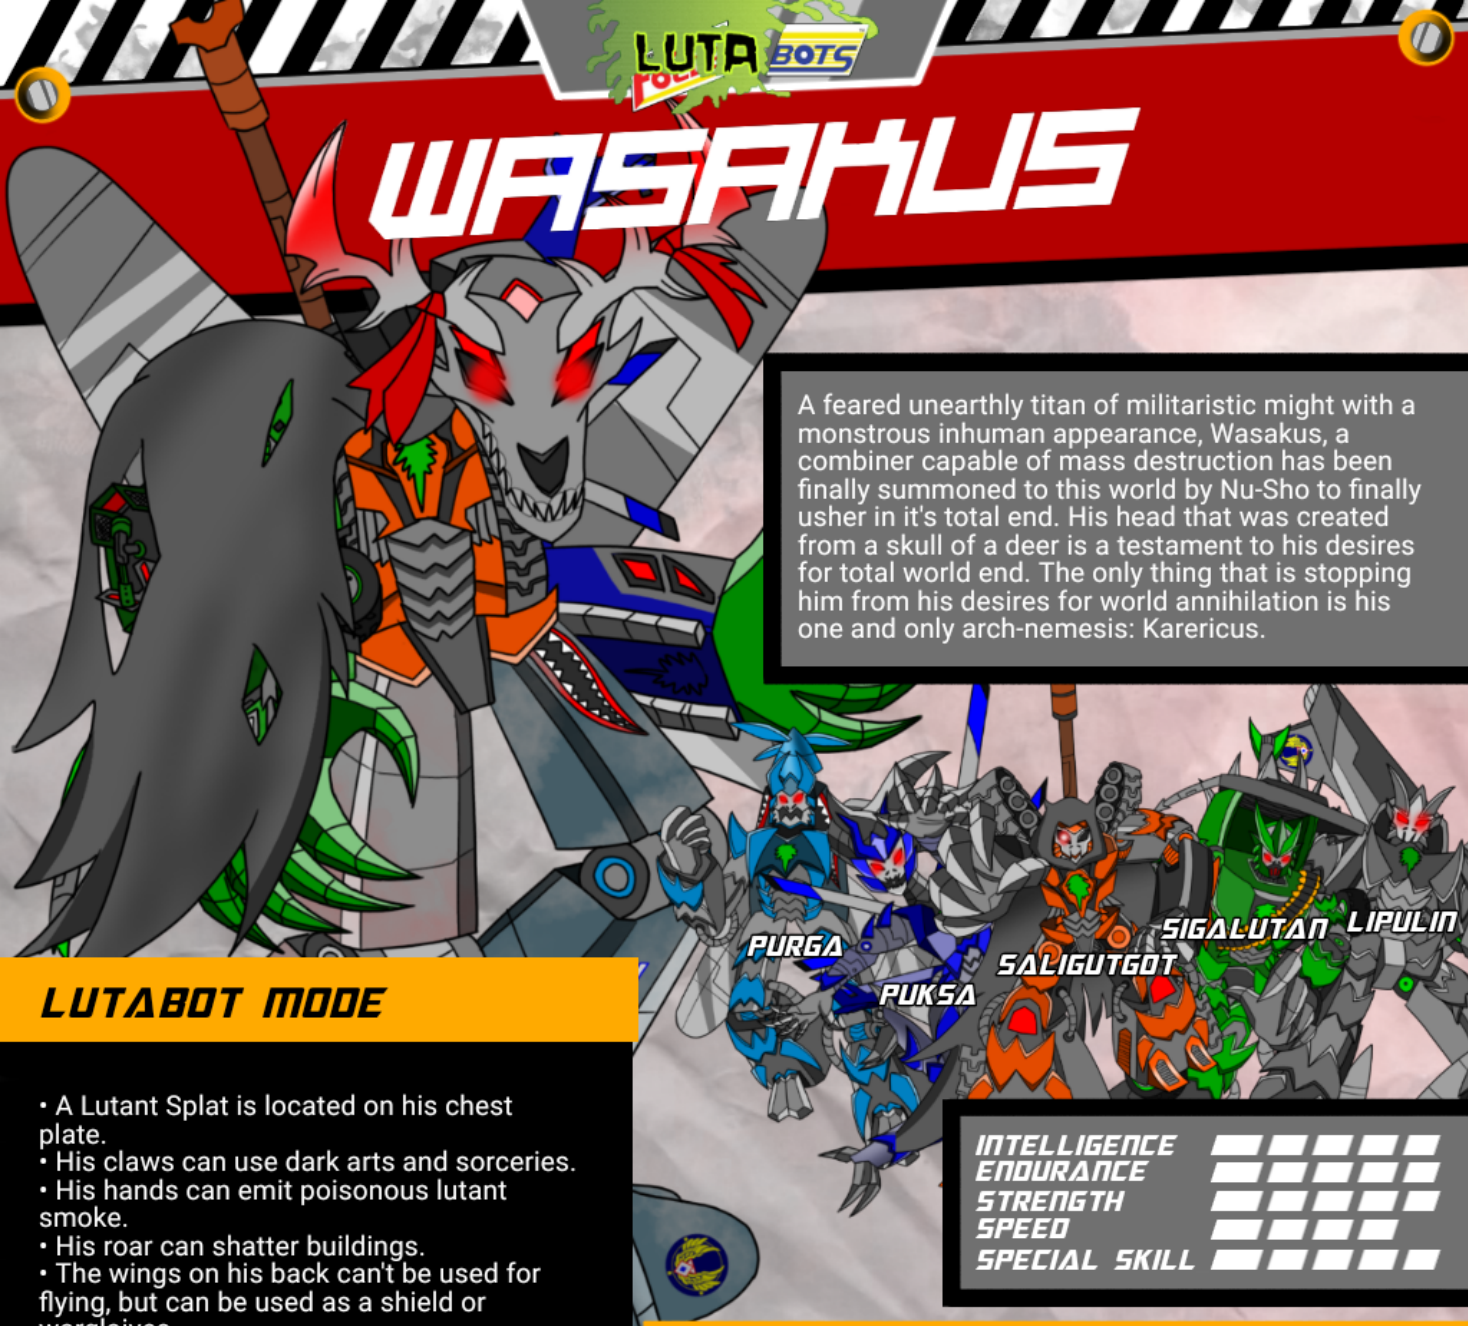
# WASAKUS

A feared unearthly titan of militaristic might with a monstrous inhuman appearance, Wasakus, a combiner capable of mass destruction has been finally summoned to this world by Nu-Sho to finally usher in it's total end. His head that was created from a skull of a deer is a testament to his desires for total world end. The only thing that is stopping him from his desires for world annihilation is his one and only arch-nemesis: Karericus.



## LUTABOT MODE

- A Lutant Splat is located on his chest plate.
- His claws can use dark arts and sorceries.
- His hands can emit poisonous lutant smoke.
- His roar can shatter buildings.
- The wings on his back can't be used for flying, but can be used as a shield or warglaives.
- His talons and claws can slice through the strongest metals.

Jomike Tejido
www.jmtejido.com

When Jomike Tejido was in Grade 2, he decided to make his own cardboard toys based on his favorite characters.

...and from that idea, Foldabots was born.

Foldabots aims to show how easy and fun it is to make your own paper toys. Foldabots aims to promote the conservation of our environment and to show everyone how Filipino culture is truly something to be proud of!

This book was created to encourage learning through play. If you have an amazing bot idea, then you can create it!

Nothing is impossible, so go ahead and achieve your dreams!
